

CO2 LASER ACCESSORIES

Automatic Plate Feeder

GRAVOGRAPH

APF

HIGH-VOLUME LASER MARKING SOLUTION
 IDEAL FOR ENGRAVING BATCHES OF
 PLATES, BADGES, LABELS & TAGS

Suitable for industrial machine plates, trophy plates, badges, door plates and key tags. For public authorities and service providers, health care providers, the hotel and catering industry, museums, parks and gardens, etc.

■ **GET MORE FROM YOUR ENGRAVER**

The Automatic Plate Feeding accessory adds batch engraving capabilities to a traditional laser engraver. Compatible with Gravograph LS100 & LS100 Ex CO2 laser engravers, the APF can engrave series of up to 195 plates. Able to engrave series of identical plates as well as lists of variables (serial numbers, references, names etc.)

■ **MORE SIMPLICITY**

Easy to install on an LS100/LS100 Ex CO2 engraver to mark a stack of plates in one go. Front access for easy plate loading. The APF feeds tags into the engraver automatically.

■ **MORE PRODUCTIVITY**

This batch engraving solution is powered by LaserStyle™, a unique software platform equipped with functionalities and wizards to reduce engraving preparation time: duplication, serial numbering, list importation etc.

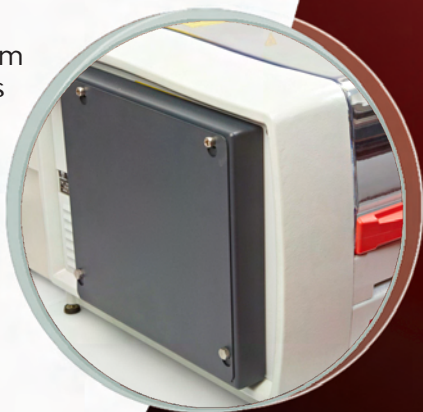

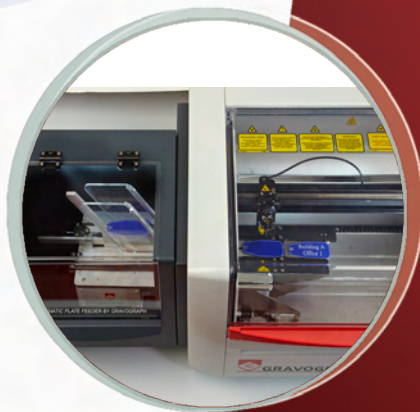

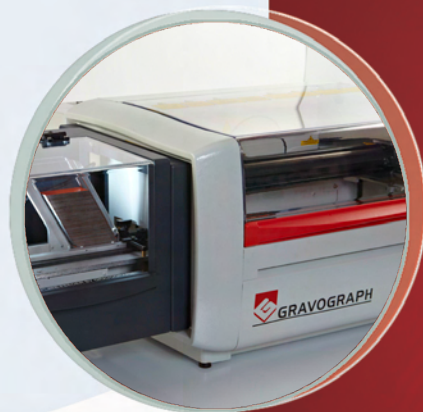

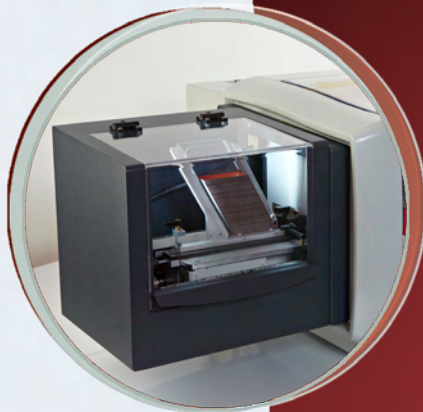

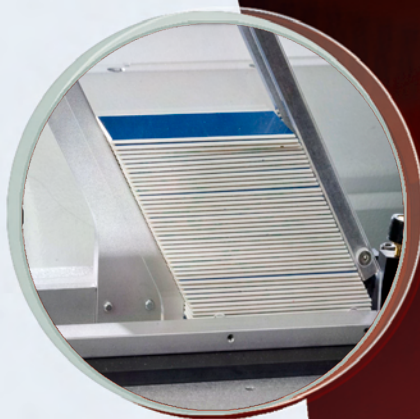

■ **MORE VERSATILITY**

The APF is able to engrave plates and tags in a wide range of plastics and coated metals. Simply remove the accessory to return to standard engraving configuration for engraving larger objects or for matrix work.

■ **MORE SAFETY**

Easy to load. Designed to offer optimum user comfort and safety (CDRH Class 2.) The APF can be combined with an integrated exhaust to ensure a clean, filtered working environment and maintain equipment in optimum condition.

GRAVOGRAPH APF SOLUTION
GIVING YOU MORE

■ **APF dimensions (accessory):**
 620 x 180 x 270mm - 15.8 x 7.1 x 10.6"

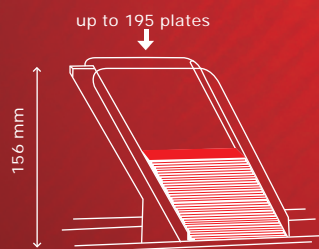

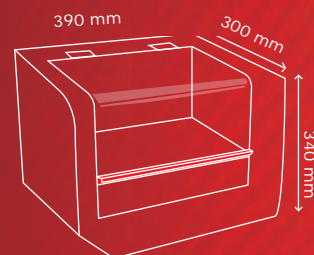

■ **Overall box dimensions:**
 390 x 300 x 340mm - 15.3 x 11.8 x 13.4"

■ **APF net weight (accessory alone):**
 7.5 kg - 16.5 lbs

■ **Max. plate loading speed:**
 110 mm/sec - 4.3"/sec

■ **Sound characteristics:**
 Off load < 52 dB (A)
 Nominal engraving < 65 dB (A)
