Performance

The M40 combines Gravotech's engraving and build quality with ground-breaking productivity. The high powered 50W, direct-drive spindle is great for even metal. No matter the shape engraving has never been faster, thanks to automatic engraving depth adjustment.

Ergonomics and design

The M40 series features an open working area giving the operator easy access to the job and materials. The M40 design features a depth nose allowing for constant engraving, particularly on uneven surfaces. Simulate your engraving job before you engrave with the integrated laser pointer. Complete range of accessories and jigs are available for the engraving of any item
